# Cloud P&C Insurance Software Systems

## WaterStreet Policy Administration System

The WaterStreet P&C Policy Administration Suite is a fully managed, cloud solution deployed and hosted with Microsoft Azure web services. This high-availability solution delivers security and scalability to support all your business lines in all states from a single platform. Our fully documented API and web services offer full interoperability and integration across your third party systems and services for a truly holistic view into operations without the need for extra overhead to manage services. With WaterStreet, you can launch products quickly and easily to support your growing business.

## FEATURES

### POLICY ADMINISTRATION

Flexible policy lifecycle administration from quote through renewal support multiple lines of business, document retention, and dynamic workflow for underwriting all from one seamless system.

### CLAIMS MANAGEMENT

From FNOL to claims settlement, WaterStreet Claims System streamlines the claims management process for all product lines in one system.

### BILLING & ACCOUNTING

A complete and configurable billing system for accurate, automated processing is built in to the WaterStreet platform for complete payment processing, premium accounting, Mortgagee Billing & Invoicing, and Premium Refund Processing.

### REPORTING & ANALYTICS

With standard reports built into the system and real-time data analytics tools for configuring custom reports and dashboards, WaterStreet gives you the real-time data you need to make informed business decisions.

## FEATURES CONT.

### DOCUMENT MANAGEMENT

The WaterStreet P&C Insurance System comes with built in document management giving you access to claims, proposals, emails and any other document needed from a single system.

### INSURED PORTAL

Our white-labeled insured portal offers policyholder access to view and update details and system integration allows for eSignature, PCI compliant payments, and omnichannel engagement including text, email, and social media.

### FLEXIBLE API & INTEGRATION TOOLKIT

Our fully documented API and developer toolkit allows you holistic access all your 3rd party data in real time from the WaterStreet System.

### BUSINESS RULES CONFIGURATION

Our robust business rules engine allows you to configure smart workflows and automate processes and assignments based on roles and security groups.

### ALL BUSINESS LINES

The WaterStreet system allows you to expand products and states quickly and easily so that you have one system for all your business, workflows, and reporting.

## OUR PROCESS

WaterStreet has a defined process to extend lines of business and move into new states.
