WATERSTREET
COMPANY

Business **Intelligence** for P&C Insurance Management

WaterStreet Business Intelligence enables insurance management to analyze operations with pre-built and ad hoc reports, dashboards, and scenario modeling using standard insurance calculations. The ability to seamlessly drill down into multiple directions within the data with insightful graphic renderings brings the data alive and helps decision-makers identify opportunities and risks.

WaterStreet Business Intelligence consolidates your policy, claims, financial, and risk data into data models designed for P&C Insurance to deliver organized, instantly available operational analytics.
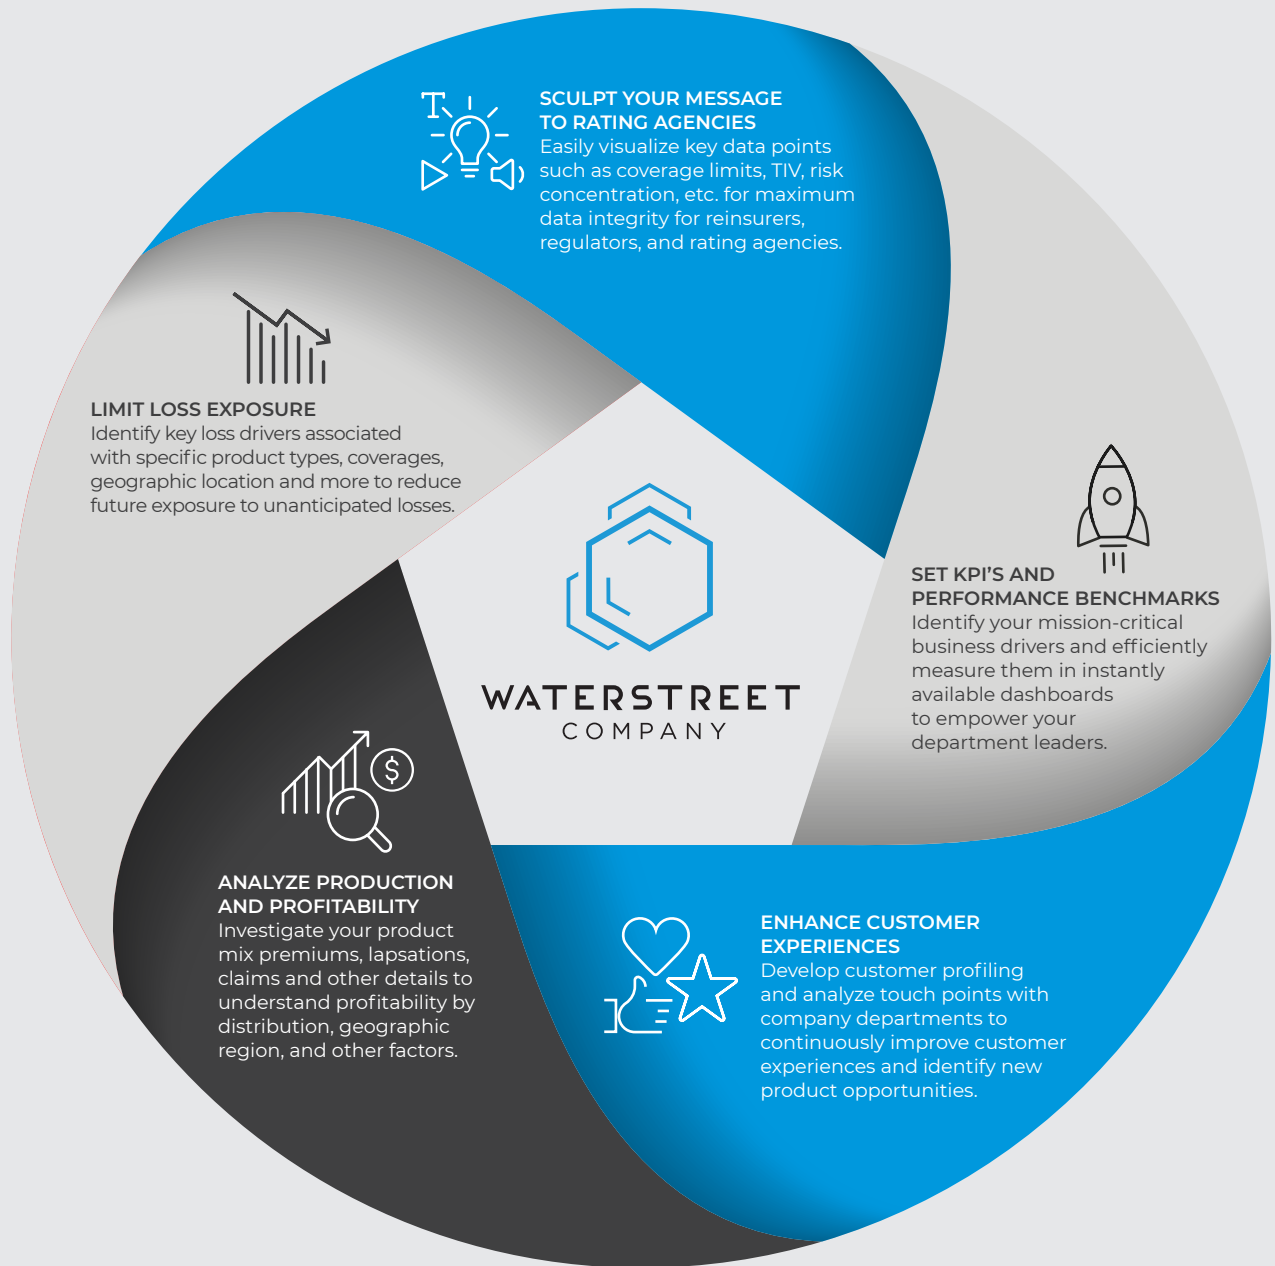

Business **Intelligence** for P&C Insurance Management

Insurance executives are faced with continuously growing their company by expanding product and state offerings profitably, while still limiting risk and loss exposure across their product mix. Forward-looking insurance executives are harnessing the power of business intelligence and leveraging AI and machine learning, to make smart business decisions faster, build innovative products & services, and achieve better business outcomes.

Data-Driven Decisions with
WaterStreet Business Intelligence

SCULPT YOUR MESSAGE TO RATING AGENCIES
Easily visualize key data points such as coverage limits, TIV, risk concentration, etc. for maximum data integrity for reinsurers, regulators, and rating agencies.

LIMIT LOSS EXPOSURE
Identify key loss drivers associated with specific product types, coverages, geographic location and more to reduce future exposure to unanticipated losses.

SET KPI'S AND PERFORMANCE BENCHMARKS
Identify your mission-critical business drivers and efficiently measure them in instantly available dashboards to empower your department leaders.

ANALYZE PRODUCTION AND PROFITABILITY
Investigate your product mix premiums, lapsations, claims and other details to understand profitability by distribution, geographic region, and other factors.

ENHANCE CUSTOMER EXPERIENCES
Develop customer profiling and analyze touch points with company departments to continuously improve customer experiences and identify new product opportunities.

Data Model Tailored to the P&C Insurance Industry

Most horizontal solutions offer a one-size-fits-all approach that is too generic to provide the policy detail that you need and limits analysis capabilities. Our insurance data warehouse model design follows industry-proven dimension- modeling standards, and stores data at the lowest possible level of granularity. Concise policy information is detailed down to the coverage and risk parameter level. Claim information includes individual payments, historical reserve estimates and full tracking of claim status changes.

The WaterStreet Business Intelligence insurance data model was built for P&C insurance from the ground up, and therefore is highly optimized for fast and flexible insurance-specific queries. A lot of work and effort has been put into each calculation method, index, fact table and other data structures to achieve a highly efficient yet standards-compliant P&C insurance data warehouse.

WaterStreet Advantage

Key Data Insights
WaterStreet provides many out-of-the-box reports which are critical to running an insurance business effectively. Our extensive library of reports and dashboards takes advantage of a rich data model to provide reporting at levels most carriers cannot access. Even better, standard reports can be quickly customized to company-specific needs.

Industry Data Experts
Our configuration engineers and data analysts are all AIDA certified through the institutes and continuously work to improve data models to better serve the P&C industry.

WaterStreet Understands Your Business
We know the challenges that carriers face in managing business because we come from the insurance industry. We draw upon decades of knowledge and first-hand experiences to bring you industry best practices.

Helping insurance companies for over **20 years**.

Founded in 2000, WaterStreet is a company of property & casualty insurance industry experts passionate about transforming and optimizing our clients' operations through remarkable customer experience, workflow optimization, and cutting-edge technology to grow with our customers as they achieve success.
